

FORM 4 GEOGRAPHY NOTE 4

DIRECTION

Direction is used to determine where things are in relation to other things.

Direction is a way to a place.

Direction is a way you have to go to get from one place to another.

Cardinal directions or points are the most important direction points on a compass.

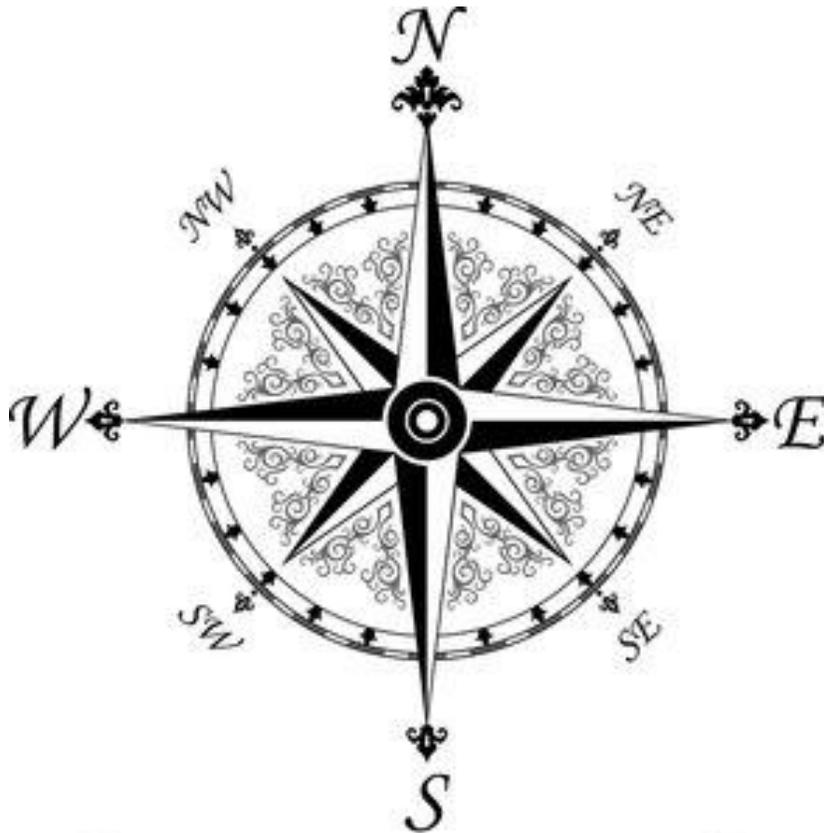

There are **4 cardinal points** which are:

1. North (N)
2. South (S)
3. East (E)
4. West (W)

Intermediate direction or points are found halfway between the cardinal points.

There are **4 intermediate points** which are:

1. North East (NE)
2. North West (NW)
3. South East (SE)
4. South West (SW)

IMPORTANCE OF COMPASS DIRECTION

- Locate your position
- Identify land features
- Helps mariners and explorers determine their direction especially to their destinations.

Look at this valentine direction map. The boy must find his way to the girl. The hearts are the guide to where the boy must follow. Use the compass rose to identify the direction to the girl.

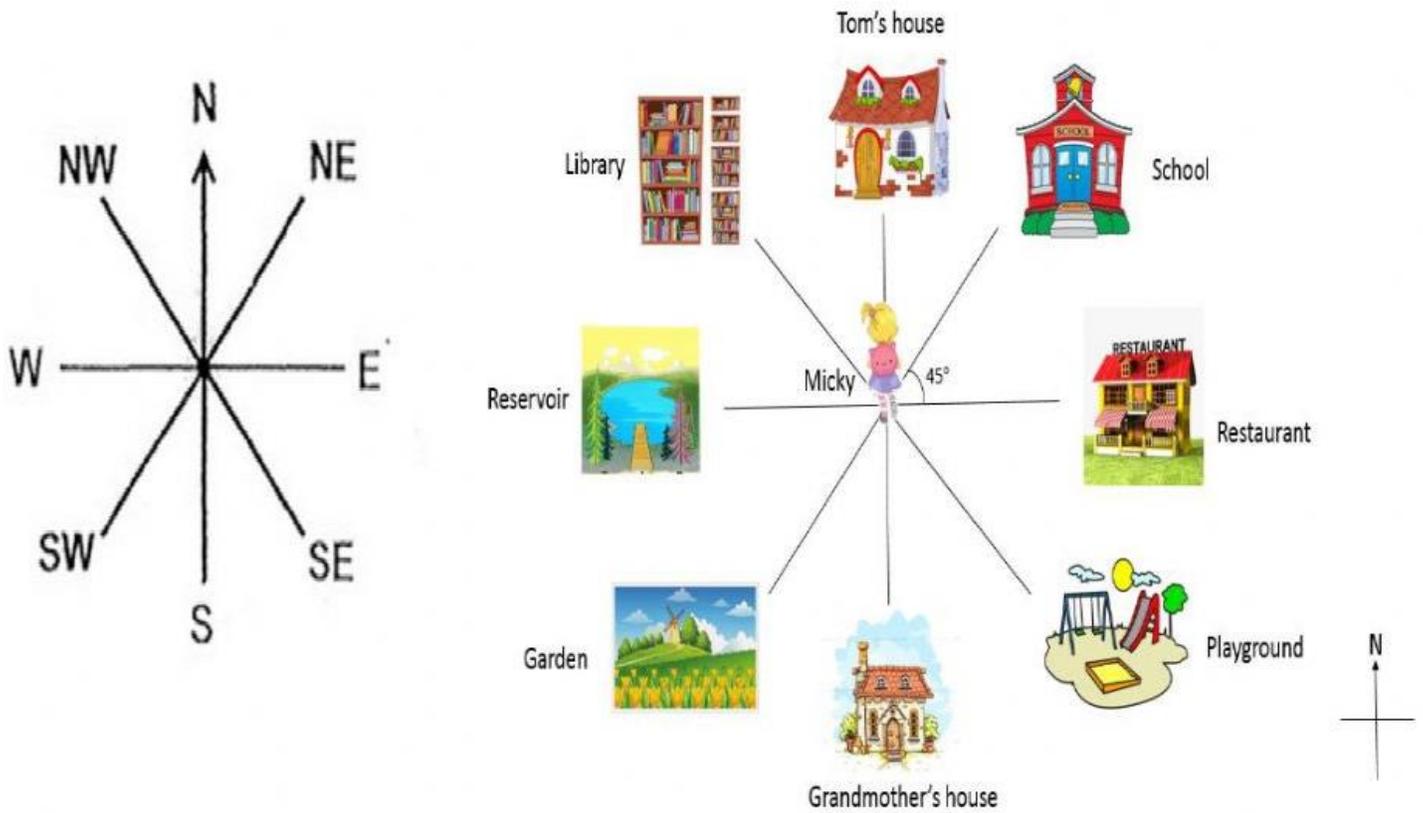

Sio ki he mape óku ha atu. Kuopau ke kumi he tamasií e hala ki he taáhine. Ko e ngaahi haati óku ne tataki e hala óku tonu ke muimui ai e tamasií. Ngaueáki e kapasa keke fakamatalaáki e hala ki he taáhine.

1. The boy must first go North (N)
2. He must then go West (W) of the road
3. Then take a turn to the South (S) until the 2nd turn
4. Turn East (E) to the intersection
5. Turn North (N) to the next intersection
6. Turn East (E) to the intersection
7. Turn down to the South (S)
8. Then turn to the right to the East
9. On the right side which is the South is the girl.
10. Reached goal

Help Micky identify the direction for each feature that is shown on the map.

Tokoniá á Micky kene lava ó tala e halanga ki he ngaahi feituú takitaha óku ha he mape.
